

TUBI E NASTRI RILAMINATI

TO ALL CUSTOMER

**Subject: Directive 2013/59/EURATOM**

Dear all,

Our company buy most of the raw material inside the European Union; therefore, the raw material is already submitted to the checks required by the EU according to the directive 2013/59/EURATOM and its changes.

For any possible purchase from non-EU companies, we request the non-radioactivity declaration, and that product is checked by the proper authorities at the customs clearance.

Best regards.

Quality assurance manager – OCSA SPA
